Attachments: State Dec 5 early input meetingv2_JS.pptx

Hi Kathy,

As we discussed on the phone, I am available and willing to attend the state face to face meeting. I also took a stab at revising the language on slide 17 (see attached).

Thanks!

-Jeff

Hi Jeff and Simma:

Attached you will see a draft PPT for the state face to face meeting.

I am hoping that the two of you are willing to help with the breakout groups at the state face to face meeting on December 5th. You would frame and present the Enforcement issue during the main session, simply take notes at each of the breakout tables when they are discussing enforcement and compliance and lastly summarize and report out issues discussed. (Simma, if Jake is unavailable we may need you to do this for assumable waters instead). We are planning on having two EPA folks at each table, one as the issue lead and one as notetaker.

We are not asking you to frame the specific issues identified in the analytic blueprint, just craft one or two general questions we'd like input on for the rule making. I put some draft language on the slide for you to "fix". Always easier to react than compose. The objective is to generate input, not steer any discussion or decisions.

I know this is short notice, we just got a prebrief for Dave scheduled for Monday so it is a bit of a rush now. No you don't need to be at the briefing as we plan to run through the format etc and will note language is being finalized and reviewed by OGC and OECA for the slide, but I'd like to be more on target with what we present than I currently am for slide #17. Actually it is probably better if OGC and OECA are not there so we can say we need to check with you!

So my asks are:

- 1) can you provide some input to slide #17 by say noon on Monday?
- 2) are you available and willing to help during the state face to face meeting on December 5th.

Thanks, Kathy
